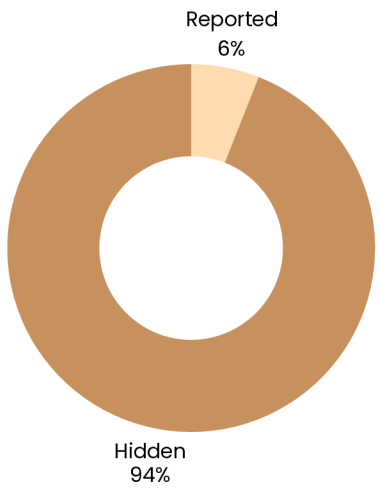
April is Sexual Assult awarness month

Sexual assault is more common than you think

Statistics Canada collects and reports data on sexual assault in Canada, including reporting rates, victim demographics, and risk groups. The statistics shown in this infographic are based on Canadian national data.

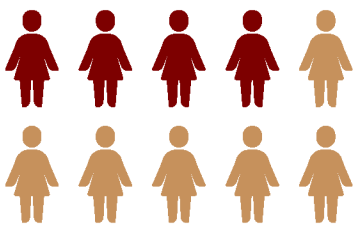
How many sexual assaults are reported?



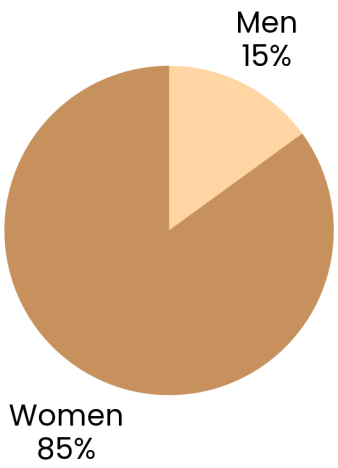
Insight!

Only 6% of sexual assaults are reported to police.
Most survivors stay silent

Nearly 4 out of 10 women in Canada experience sexual assault in their lifetime.



Who are the victims?



Insight!

Women are disproportionately affected by sexual violence.

Who is more at risk?

Young women (age 16-24)

Indigenous women

Women with disabilities

What we can do ?

Speak up

Don't ignore it when you see something wrong

Talk about it

The more we talk, the less people stay silent

Support survivors

Listen to them
Believe them

No one should be afraid to speak, Break the silence
Stand with survivors
